THE JOURNAL

—— OF THE ——

FRANKLIN INSTITUTE,

DEVOTED TO

SCIENCE AND THE MECHANIC ARTS.

EDITED BY

Dr. W. H. Jayne, Chairman; Mr. Edwin Swift Balch, Ph.D., Dr. Persifor Frazer, Mr. Louis E. Levi, Prof. Coleman Sellers, E.D., Committee on Publications;

with the Assistance of

Dr. Wm. H. Wahl, Secretary of the Institute.

VOL. CLXII.—Nos. 967-972.

(81st YEAR.)

JULY—DECEMBER, 1906.

PHILADELPHIA:

Published by the Institute, at the Hall, 15 South Seventh Street.

1906.

JOURNAL OF THE FRANKLIN INSTITUTE

Vol. CLXII.—July-December, 1906.

INDEX.

Abrasive materials....240
Acoma: the Cliff City of New Mexico. (Carter.)....449
Aluminum, depositing copper on....156
Amethysts, American....239
Analyses and assays free, by Government....370
Analytical notes—Some recently devised tests. (Leffmann)....371
(Sadtler, S. S.)....213
Arsenic, the recovery of....466
Artesian well, measuring the flow of....159

Balch, Edwin Swift. The survival of the shortest and easiest in language....421
Bartlett, John. On the application of Farmer's method of reduction by which the shadows are preserved and only the high-lights reduced....73
Supplementary illumination in photographic development....473
Baldwin, Mathias W. Presentation of portrait of....80
Bates, Lindon W. The terminal lake canal....1
Book Notices....476

Calcium, use of in metal refining....424
Carbonic acid as a cause of rust....157
Carter, Oscar C. S. Acoma: the Cliff City of New Mexico....449
Combustion, regulation of the duration of. (Eldred)....201
Chesapeake and Delaware canal, resolution of Institute, for enlargement of. (Haupt)....326
Chilean nitrate deposits....159
Chimneys. (See high chimneys)
Civil service reform. (See Massachusetts)....72
Claude, Georges—Low pressure: the death of matter. (Translated by Chief Eng. B. F. Isherwood, U. S. N.)....375
Cold-worked iron, effects of strain in....396
Comparative strength of green Tamarack and green Norway pine....472
Corundum, the need of....448
Cotton, the scouring of. (Matthews)....25
Cryalite, importation of....296

Darrach, Chas, Gobrecht. The design, installation and maintenance of the modern office building....37, 129
Diamonds, the search for....212
world's famous....217

Easter Island, a trip to. (Frank)....179
Earthquake records....335
(San Francisco), one lesson of....158

158452

Recovery of Arsenic....466
Richardson, Clifford. The petroleums of North America: a comparison of those of the older and newer fields....57, 81
Rust, carbonic acid as a cause of....157

Sadtler, Samuel S. Analytical notes....213
Salton Sink, the....23
Scandinavian water power....316
Scouring of cotton. (Matthews.)....25
Smelting zinc ore in the blast furnace....428
Soda spring, a remarkable....24
Soft graphite made electrically....448
Stanford, J. V. Direct leakage of steam through slide valves....467
Steel, vanadium....218
Subway, proposed for Pittsburgh....374
Superheated steam in the power station. (Mann)....291
Supplementary illumination in photographic development. (Bartlett.)..473
Survival of the shortest and easiest in language. (Balch.)....421
Sy, Albert P. A note on the examination of maple product. The load value....71

Tamarack and green Norway pine, comparative strength of....472
Technical notes....218
Terminal lake canal at Panama. (Bates.)....1
The need of Corundum....448
Tin in Southern Nigeria....278
Topaz. (See tourmaline.)
Tourmaline and topaz, in Southern California....212
Trautwine, J. C., Jr. Legislative engineering....407
Transformers and transformer iron, standard test for....316
Turbine engine, variable speed....428
Turquoise, California, in favor....200

Use of calcium in metal refining....424

Vanadium steel....218
Variable speed turbine engine....428

Water-power plants, the value and design of, as influenced by load factor. (Perrine)....269
Scandinavian....316
Weather forecasting from synoptic charts. (Henry.)....297
Weintraub, E. The mercury arc: its properties and technical applications....241
Westman, Gustaf M. Development of the theory for the kinetic energy of gases....317, 353

Zinc industry in Utah....395
ore, smelting in the blast furnace....428
